

Delivered and laid (gravel)

So you want to impress your other half whilst they are away, don't wash the car or Hoover, do it big style and revive the drive, have them drooling as they approach the house and then they question is this really my house, wow we did so well, how did we get here as Talking Heads would say.

Call the guys at Direct Gravel Supplies to supply and lay a drive to be proud of, whether it's a top up of gravel or new drive we'd love to do it for you

Revive your drive and be the envy of the neighbours

For very little money you can improve the look of your house, literally a few hundred pounds could actually add 1000's to the sale price of your house.

Remember the drive set the scene and no one really wants to see a horror movie!!!!!!!!!!!!!!

Don't call me Kirsty

So winter is coming to a close having left its trail of mud, we have been reviving and revamping drives all over the place and the difference for very little is awesome.

Kerb appeal is so important when selling your house and if the drive looks like a bombsite what does that say to the prospective buyer, we have simply laid and spread a few tonnes of gravel for less than £200.00 and the hard to sell house had them fighting over it.
