Ask about our membrane & gravel laying service...

Gravel Laying Services

Thanks for looking at our site.

Delivery of the right product is the easy part of the job, the hard work starts when you need to lay the membrane and spread out the gravel.

DGS are experienced and willing to take the hard work away from you.

It might be that you want your drive topping up or your paths and borders lined with a weed suppressing membrane and covered with a slate or mulch product

You may even want large areas of grass removed a membrane laying and a gravel layer put down to stop the need for cutting grass or weeding often.

As a local family business we understand that service and reputation are very important and communication with our clients is key.

We are happy to provide references from customers that have employed our services.

Whatever you need we welcome the opportunity to discuss this with you.
